

VetAPHEX®

Wound Wash + Skin Protectant

ENVIRONMENTALLY SAFE CARE FOR PETS

Kills
99.99%
of Germs

Treat your pets wounds and sores with **VetAphex® WoundWash + Skin Protectant**, made with nature's clean hydrogen and designed to effectively kill **99.99% of germs** without the detrimental side effects of alcohol. Unlike alcohol antiseptic sprays, or betadine scrubs, **VetAphex® WoundWash + Skin Protectant** dual-purpose wound wash and protectant continues to kill germs, even hours after drying.

Product Benefits:

- Dual-purpose wound wash and antiseptic
- Cleans wounds and kills 99.99% of germs
- Continues killing germs for hours, even after drying, which aids in healing
- Alcohol-free. No sting— allows for easier wound care!
- Non-irritating. Water-based. Gentle on skin and open wounds and sores
- Highly effective, a small amount of **VetAphex®** provides full germ killing power
- Will not stain or discolor surfaces, skin, hair. Non-bleaching
- Apply directly with the spray or with a cloth
- Environmentally safe & cost effective
- Stores at -20 to 135F, with no degradation. Long shelf-life, with no expiration date

Effective Pet Wound Care: Cleans wounds, prevents infections, and supports healing. The unique Aphex formula is powered by nature's clean hydrogen and has been tested against harmful bacteria including *Staphylococcus aureus*. The water based formula is effective and safe.

Aphex Technology Behind the Product:

Aphex BioCleanse Systems has developed a synergistic relationship where the lightest element on the earth – Hydrogen, in its monatomic form (H1) – creates a powerful chemical chain with Quaternary Ammonium Compounds resulting in an efficient non-toxic germ killer.

Environmentally Safe & Cost effective.

- Highly effective, a small amount of **VetAphex®** provides full killing power
- Dual-purpose wound wash and antiseptic
- No sting allows for easier comprehensive treatment
- Works longer, keeps killing germs for hours after drying
- Supports healing that helps your pet to return to normal activity
